

International Journal of Medical Justice

OFFICIAL JOURNAL of the GLAFIMS ACADEMY,

PISSN: 3006-208X OISSN 3006-2098, Online E-ISSN [INDIA]:2583-7958

AIMS AND SCOPE OF IJMJ

The International Journal of Medical Justice (IJMJ) serves as a platform for disseminating high-quality research across Forensic Medicine, Investigative Medicine, Medical Toxicology, and related fields such as Law and Nursing. The Journal publishes reviews, original studies, hypotheses, and critical insights, providing thorough analysis and evaluation. Each submission undergoes peer review by a minimum of two independent reviewers in a double-blind process, and the Journal is indexed in Index Copernicus.

The Journal scrutinizes medical care and forensic assessment of individuals in the judicial system. It possesses a wide international outlook.

The Journal encompasses various topics pertinent to clinical contexts, including forensic medicine, pathology, science, toxicology, odontology, anthropology, psychiatry; issues surrounding death and custody; training; forensic nursing; police occupational health; interview fitness; death investigation and causation; national systems of forensic medicine; human identification; entomology and palynology; taphonomy; mental health; criminology; profiling; child maltreatment; interpersonal violence; assaults and injuries, personal injury, elder abuse, domestic violence, sexual assault; suicide, parasuicide, and self-harm; restraint-related injuries; substance misuse; driving under influence; traffic and transportation medicine; refugee and asylum healthcare; medical jurisprudence, ethics, and negligence; mass casualties, war graves, and torture; extrajudicial deaths; and human rights.

Aim of GLAFIMS: “To uplift the status of forensic medicine, investigative medicine and allied health science nationally and internationally by promoting mutual interaction between stakeholders for the advancement of relevant scientific knowledge”.

Vision of IJM: To provide a common platform for publishing/sharing good quality of researches in the field of Forensic Medicine, Investigative Medicine, Medical Toxicology, and allied specialties like Law, Justice, Nursing, Sciences etc.

Objective: To bring out a published scientific journal under the auspicious of the Global Academy of Forensic and Investigative Medicine and Science

Scope of IJM: The Journal covers every facet of the specialty, including ethical and social concerns, as well as clinical and medico-legal elements. Preference is given to original research articles, review papers, and significant case reports.
